POLITEKNIK NEGRI JEMBER
2025

1. Kita membuat google form terlebih dahulu sesuai dengan BKPM

The screenshot shows the top portion of a Google Form. The title is "Pendataan Lokasi Magang Mahasiswa Prodi MIF". Below the title is a description: "formulir ini digunakan untuk mendata lokasi magang mahasiswa prodi MIF yang telah melaksanakan kegiatan magang". The first question is "Nama Lengkap" (Full Name), which is a short-answer text field. The form interface includes standard Google Form editing tools like bold, italic, underline, link, and unlink icons.

2. Membuat Isi dari google form tersebut

This screenshot displays the complete content of the Google Form. It includes the title and description from the previous image. The form contains five questions: 1. "Nama Lengkap" (Short answer text), 2. "NIM" (Short answer text), 3. "Angkatan" (Multiple choice with options 2023, 2024, and 2025), 4. "Nama Instansi" (Short answer text), and 5. "Alamat Instansi" (Short answer text). Each question has a "Required" toggle switch at the bottom right of its field.

3. Sesudah itu langsung publis, jangan lupa untuk edit semua orang bisa nge akses dengan aku gmail nya masing (Anyone with the link)

The screenshot shows the "Published options" dialog box. The "Accepting responses" toggle is turned on. Under the "Responders" section, the option "Anyone with the link" is selected, with a "Manage" link next to it. At the bottom of the dialog are "Cancel" and "Save" buttons.

4. Jika goggle form nya sudah ada yang ngisi, maka kita bisa melihat responses nya.
